

Investment Objective

The Fund can invest up to 100% of the NAV in bonds or similar like capital guaranteed products to generate a stable return with low volatility. The Fund has an opportunistic approach. The Fund can in accordance with the principles of risk-spreading and diversification invest in bonds from other sectors and bonds in foreign currencies. The Fund will not take in consideration the rating of the bonds. The Fund can invest up to 20% in equities, commodities or similar like structured products or ETFs with the risk characteristics of equities. The Fund has a clear focus in hybrid/subordinated financial, insurance bonds in the investment policy. The Fund has the possibility to invest in all market segments. The investment decisions are taken on a Bottom Up approach.
